

Instructional and Learning Designer

York is a leading international teaching and research university, and a driving force for positive change. Empowered by a welcoming and diverse community with a uniquely global perspective, we are preparing our students for their long-term careers and personal success. Together, we can make things right for our communities, our planet and our future.

THIS IS A FULL-TIME CONTRACT POSITION TO DECEMBER 15, 2023.

As part of the Lassonde Educational Innovation Studio, the Instructional and Learning Designer (ILD) is Lassonde's subject matter expert in relation to instructional design. The ILD creates engaging and effective instructional materials for a range of delivery formats to support the School's program offerings (undergraduate, graduate, and professional programs) and administrative and co-curricular projects. The ILD works collaboratively with Lassonde faculty, staff, and other subject matter experts, Teaching Commons, and other units across York, to determine and assess instructional needs, design, and develop instructional materials to support their implementation and evaluation. The ILD continually explores and makes recommendations for new instructional technologies, methods, and approaches to address instructional needs within the educational innovation and learning domain. As an expert, and given that Instructional and Learning design involves the process of identifying the performance, skills, knowledge, information and attitude gaps of a targeted audience and creating, selecting or suggesting learning experiences that close this gap, based on instructional theory and best practices from the field, the ILD is tasked with designing a learning process to pass on information to learners in many formats including online, face to face and/or blended learning

To be considered for this opportunity, you will bring the following:

- University degree in Instructional Design, Education or related subject field and three years of recent and relevant experience instructional design experience, learning design experience and learning technology support experience including designing and developing learning solutions in a range of delivery formats.
- Experience providing instructional design advisory services in an academic environment.
- Advanced Learning Management System (LMS) experience (Moodle, Canvas, D2L would be an asset).
- Proven experience using collaboration tools, ePortfolios, blogs, turnitin, personal response systems and web conferencing software.
- Experience using various adaptive learning software platforms such as OLI, Aleks, Lumina Datamatics would be an asset.
